

Asset F: Emergency Decision Flowchart

Use this flowchart when you face an emergency situation.

EMERGENCY DECISION TREE

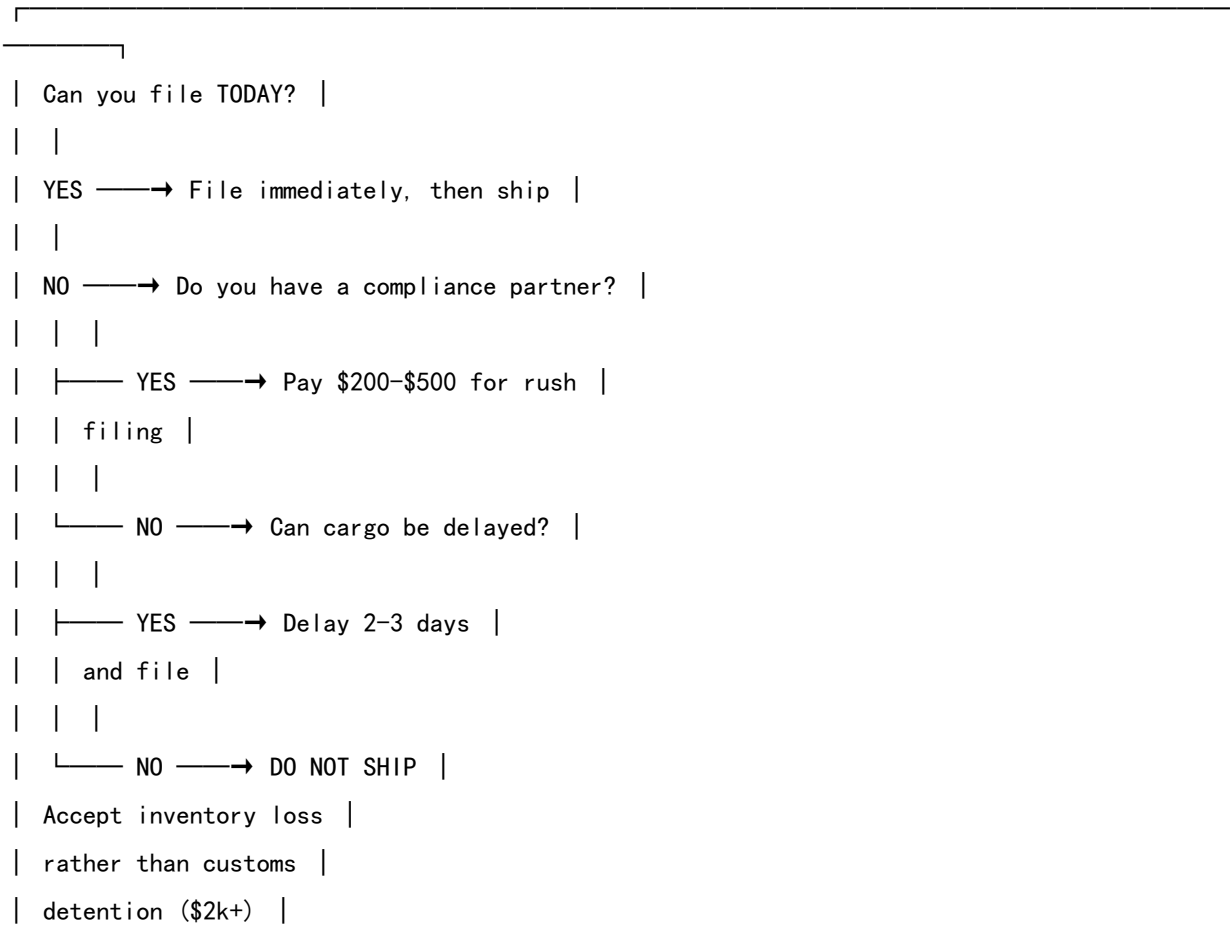

STEP 1: What is the situation?

...

STEP 2A: Less than 48 Hours (URGENT)

...

...

WHAT NOT TO DO

Situation	DON'T	DO
----- ----- -----		
No CPC yet	Ship without filing	Delay cargo, get CPC f
Wrong data	Submit anyway	Fix data, resubmit
Forwarder won't help	Give up	Hire customs broker (\$50-200)
Filing rejected	Ignore	Fix root cause, resubmit within 24h
Missing deadline	Provide false info	Apply for extension or delay cargo

****Golden Rule:**** Never ship without filing. The cost of detention (\$2,000-10,000+) far exceeds the cost of delaying cargo.
