

Appendix A: PPWR Scope Self-Assessment Checklist

Confirm in 3 minutes whether your products fall under PPWR scope Applies to: all sellers shipping to the EU market

How to Use

Go through each section. If **any** answer is "Yes", your products are subject to PPWR.

Section 1: Does Your Product Come With Packaging?

- ■ Product has its own packaging (cardboard box, polybag, bottle, etc.)
- ■ Product has outer packaging for shipping (shipping box, bubble mailer, stretch film, etc.)
- ■ Product includes cushioning/fillers (bubble wrap, foam peanuts, cardboard dividers, etc.)
- ■ Product includes labels/tags/instructions (even if not technically "packaging," these are subject to PPWR labelling requirements)

If all answers above are "No" → your product is likely outside PPWR scope (extremely rare)

Section 2: Is Your Product Sold Into the EU Market?

- ■ Shipping via FBA to EU warehouses
- ■ Direct shipping from outside the EU to EU consumers
- ■ Shipping from EU warehouses via Temu / Shein / TikTok Shop
- ■ Selling to EU consumers via independent website
- ■ Wholesale to EU distributors / retailers

If all answers above are "No" → your product is outside PPWR scope

Section 3: Which Packaging Types Do You Use?

PPWR covers **all** packaging types with no exemptions:

Packaging Type	Do You Use It?
-----	:---:
Consumer packaging (product packaging at point of sale)	■
Group packaging (secondary packaging grouping multiple units)	■
Transport packaging (shipping boxes / bubble mailers)	■
Service packaging (takeaway bags, etc.)	■
Tied packaging (multiple materials that cannot be manually separated)	■

Section 4: Do Your Packaging Materials Involve High-Risk Items?

Material Type	Present?	Notes
-----	:---:	-----
Bubble mailers / bubble wrap	■	Common PFAS contamination
Foam inserts / EPE pearl cotton	■	Common PFAS contamination
Coated paper / laminated bags	■	Common PFAS contamination
Plastic carrier bags (wall thickness < 15µm)	■	Banned from 2030
Food-contact packaging	■	No transition period
Fresh produce shrink wrap	■	Banned from 2030
Single-portion condiment packaging	■	Banned from 2030

Conclusion

If Section 1 or Section 2 has any "Yes" → your products are subject to PPWR and you must:

1. ■ Complete EPR registration in each country where you sell
2. ■ Ensure packaging meets restricted substances limits
3. ■ Ensure void space ratio ≤ 50% (from 2030)
4. ■ Prepare recyclability documentation
5. ■ Submit EPR registration numbers to marketplace back offices

Next step: Go to Appendix B to see the list of countries you need to register in.

This checklist is based on the EU PPWR Regulation text (EU 2025/40). For questions, consult a professional compliance advisor.
